Bill Topic:	EMPLOYER ASSISTANCE	FANCE FOR HOME PURCHASE TAX CREDIT	
Summary of Fiscal Impact:	<ul><li>☑ State Revenue</li><li>☑ State Expenditure</li></ul>		
	☐ State Transfer	☐ Statutory Public Entity	
	Starting for tax year 2023 through tax year 2029, the bill creates a state income tax credit for employers who make a contribution to an employee for purchasing a primary residence. The bill reduces state revenue and increases state expenditures through FY 2029-30.		
Appropriation Summary:	For FY 2023-24, the bill requires an appropriation of \$153,532 to the Department of Revenue.		
Fiscal Note	The fiscal note reflects the introduced bill.		

# Table 1 State Fiscal Impacts Under HB 23-1189

		Current Year FY 2022-23	Budget Year FY 2023-24	Out Year FY 2024-25
Revenue	General Fund	(\$413,000)	(\$874,000)	(\$978,000)
_	Total Revenue	(\$413,000)	(\$874,000)	(\$978,000)
Expenditures	General Fund	-	\$153,532	\$7,328
	Centrally Appropriated	-	\$15,251	-
	Total Expenditures	-	\$168,783	\$7,328
	Total FTE	-	0.9 FTE	-
Transfers		-	-	-
Other Budget Impacts	TABOR Refund	(\$413,000)	(\$874,000)	(\$978,000)
	General Fund Reserve	-	\$23,030	\$1,099

### **Summary of Legislation**

Starting in tax year 2023 through tax year 2029, the bill creates a state income tax credit for employers who make a contribution to an employee for purchasing a primary residence. The amount of the credit is five percent of an employer's contribution, and is capped at \$5,000 per employee per year and \$750,000 per employer per year. The credit is nonrefundable but may be carried forward for up to five years. The employer must open a savings account to deposit contributions for each employee, and an employee may authorize an employer to withhold contributions to the account from the employee's income. If the funds in the account are not used for eligible expenses or the employee terminates employment, any credit previously taken by the employer for that employee is subject to recapture. The amount contributed by the employer may be subtracted from the employee's federal taxable income for the purpose of determining their state taxable income. The employee must use the money for eligible expenses which include a down payment and closing costs, including fees for appraisals, mortgage origination, and inspections and must maintain employment with the employer in order to receive the full benefit of the contribution.

### **Assumptions**

Based on data for similar employer tax credits as well as on employee relocation allowances, the fiscal note assumes that up to 100 employers will claim the tax credit in tax year 2023, with increasing numbers in future years, and that the average contribution per employee will be \$15,000, for an average of 10 employees per employer.

#### **State Revenue**

Based on the assumptions above, the bill will decrease General Fund revenue by \$413,000 in FY 2022-23 (a half-year impact), by \$874,000 in FY 2023-24, and by \$978,000 in FY 2024-25, and by increasing amounts in future years, through FY 2029-30, when the final half-year impact will occur. If the credit is utilized more extensively than assumed, the bill will decrease state revenue by a greater amount than estimated.

## **State Expenditures**

The bill increases General Fund expenditures by about \$169,000 in FY 2023-24, and by about \$7,000 in FY 2024-25 and future years. These costs represent administrative expenses in the DOR to implement the new tax credit. Expenditures are shown in Table 3 and detailed below.

Table 3
Expenditures Under HB 23-1189

		FY 2023-24	FY 2024-25
Department of Revenue			
Personal Services		\$56,955	-
Operating Expenses		\$1,215	-
Capital Outlay Costs		\$6,670	-
Computer Programming and Testing		\$67,690	-
Research and Analysis		\$7,392	\$7,328
Document Management		\$13,610	-
Centrally Appropriated Costs <sup>1</sup>		\$15,251	-
	Total Cost	\$168,783	\$7,328
	Total FTE	0.9 FTE	-

**Personal services.** In FY 2023-24, the DOR will require additional staff in the Systems Support Office to support the Gen Tax programming effort. Operating expenses include telephone, computers, and other supplies for these staff.

**Computer programming and testing.** The DOR will have one-time costs of \$67,690 in FY 2023-24 for computer programming and testing. Programming costs are estimated at \$38,250, representing 170 hours of contract programming at a rate of \$225 per hour. Costs for user acceptance testing at the department are estimated at \$29,440, representing 920 hours at \$35 per hour.

**Research and analysis.** Expenditures in the Office of Research and Analysis are required for changes in related GenTax reports so that the department can access and document tax statistics related to the new tax policy. These costs are estimated at \$7,392, or 231 hours for data management and reporting at a rate of \$32 per hour starting in FY 2023-24 and similar amounts in future years.

**Document management.** The DOR will have one-time costs of \$13,610 in FY 2023-24 for form changes and the creation of new forms. These services are performed in the Department of Personnel and Administration using reappropriated DOR funds.

**Centrally appropriated costs.** Pursuant to a Joint Budget Committee policy, certain costs associated with this bill are addressed through the annual budget process and centrally appropriated in the Long Bill or supplemental appropriations bills, rather than in this bill. These costs, which include employee insurance and supplemental employee retirement payments, are shown in Table 2.

### **Other Budget Impacts**

**TABOR refunds.** The bill is expected to decrease the amount of state revenue required to be refunded to taxpayers by the amounts shown in the State Revenue section above. This estimate assumes the December 2022 LCS revenue forecast. A forecast of state revenue subject to TABOR is not available beyond FY 2024-25. Because TABOR refunds are paid from the General Fund, decreased General Fund revenue will lower the TABOR refund obligation, but result in no net change to the amount of General Fund otherwise available to spend or save.

**General Fund reserve.** Under current law, an amount equal to 15 percent of General Fund appropriations must be set aside in the General Fund statutory reserve. Based on this fiscal note, the bill is expected to increase the amount of General Fund held in reserve by the amounts shown in Table 1, decreasing the amount of General Fund available for other purposes.

#### **Effective Date**

The bill takes effect 90 days following adjournment of the General Assembly sine die, assuming no referendum petition is filed.

### **State Appropriations**

For FY 2023-24, the bill requires an appropriation of \$153,532 to the Department of Revenue, and 0.9 FTE, of which \$13,610 is reappropriated to the Department of Personnel and Administration.
